

Opt In Solutions

Our communication business units and the CU*Answers Managed Services team are working to provide an Opt In solution that will help our credit union partners to address the recent Reg. E changes enacted by federal regulations. Our solution is designed to be ala carte so that you can leverage as much or as little of our call center, electronic communication and/or marketing services to help maximize your Opt In success. Please indicate your choices to meet your communication needs.

Description	Quantity	Price	Total
